

HORIZON2020

H2020-MSCA-RISE-2018

(MARIE SKŁODOWSKA-CURIE RESEARCH AND INNOVATION STAFF EXCHANGE)

Università “Mediterranea” di Reggio Calabria – PAU Department

“Early Stage Researcher” and “Experienced Researcher” positions recruitment

“Call for interest” within the Research Project:

**Transition with Resilience for Evolutionary Development (TREnD) Grant Agreement
Number: 823952**

Università “Mediterranea” di Reggio Calabria – PAU Department

Contract Type: Fixed-term for a period of 6 months within 48 months of the duration of the Project

Department: Patrimony, Architecture and Urbanism Department (PAU)

Payment: € 2,100.00 per month, due to cover the international exchange scheme to the Third Country US

First Closing Date: May 30th 2019

Second Closing Date: May 30th 2020

The PAU Department wishes to appoint four (4) Early Stage Researcher and Experienced Researchers to conduct fundamental research on the following topics: Innovation in transition management and resilience concept from an evolutionary economy lens; Innovation in transition management and spatial planning through a territorial dimension approach; Resilience Capacity building in the aftermath of external shocks.

The main aim is to combine Transition with Resilience for Evolutionary Development (TREnD) in different territorial contexts towards a reforming process of Cohesion Policy.

The expected result of the research project lies in providing a platform in the shape of an Open Access Toolkit on the basis of capturing resilience and evolutionary path as policy designing factors.

The Early Stage and Experienced Researchers will join a Marie Skłodowska-Curie RISE research project funded by the European Union's HORIZON 2020 program for Research and Innovation, entitled Transition with Resilience for Evolutionary Development (TREnD).

The International Partnership has established the following research network:

1. Università degli Studi “Mediterranea” Reggio Calabria PAU – Coordinator
2. Università degli Studi di Palermo (Italy).

3. Aristotle University of Thessaloniki (GR)
4. Utrecht University (NL),
5. Northeastern University di Boston (USA)
6. Louisiana Tech University (USA)

The research will be conducted in the Mediterranea University of Reggio Calabria Italy – PAU Department, with opportunities for collaborative work with the European partners and with the opportunity to conduct part of the research at the US universities.

The candidates are expected to have knowledge of the concepts of innovative urban regeneration approaches, increasing the potential for place-based, innovation towards local economic development. Fluency in oral and written English is required, and a suitable qualification will be required by the PAU Department.

In accordance with Marie Curie terms, applicants can check their eligibility for this "Early Stage Researcher" and "Experienced Researcher" Fellowship position in the attached document "Guide for Applicants".

Benefits of this Marie Curie contract include the amount of 2100 Euros per month spent in US host organizations. The duration of this Marie Curie contract is 6 months until the first reporting period of the entire research.

The Coordinator of the TRENd project reserves the right to terminate the collaboration with the selected candidates in case of the quality of work produced or the entire work produced by him/her does not respect the request fixed in the document of work and/or does not contribute to the achievement of the planned results.

The indicative secondment scheme is in the attached document "Document of Actions".

How To Apply

PLEASE NOTE you must submit the application form and send it, together with your European CV and a scanned copy of your identification document, by email to the Coordinator of the TRENd project, prof. Carmelina Bevilacqua (cbevilac@unirc.it) and c/c to Domenico Cappellano (d.cappellano@unirc.it) within the first closing date.
