WORK EXPERIENCE

From 2022 to today

Associate Professor of Urban Planning
Mediterranea University of Reggio Calabria

2005 - 2022

PhD, Researcher and Assistant Professor in Urban Planning
Mediterranea University of Reggio Calabria
<https://www.unirc.it>

2024

Member of the working group for the development of the Pilot Project (PP) Planning for Climate Change to boost cultural and natural heritage: demand-oriented ecosystem services based on enabling ICT and AI technologies. Climate adaptation plans for the reduction of the ecological footprint and ecological debt, aimed at improving the conservation and transformation response in terms of resilience and quality of life in the Calabrian and Lucanian urban and territorial systems. PNRR Mission 4 Component 2 Investment 1.5 Innovation ecosystemTech4YouTechnologies for climate change adaptation and quality of life improvement-Spoke 4 Safeguarding and enhancing the natural and cultural heritage and identity of the territories. OR 4.6 | Pilot Project: Planning for Climate Change to boost cultural and natural heritage: demand-oriented ecosystem services based on enabling ICT and AI technologies.

Scientific contact for Action 2 Scenarios and predictive models with scalar digital interface and for Action 3: Site-based Earth Observations

2023

Scientific manager for the activities supporting the development of the community map for Samo and Precacore. The map of community is the self-representation by the inhabitants of a certain place of the heritage, landscape, and knowledge in which they recognize themselves. It often arises as a way of remembering and transmitting to new generations. It has the merit of highlighting the way in which the local community is seen and perceived; it indicates the elements of its territory to which value is attributed; it highlights personal and collective memories, and can also represent transformations, the current reality and its future. It is useful for creating awareness with respect to the territory, and to its widespread heritage, rich in details and a network of relationships and interrelations between the many elements that distinguish it. Preparing a community map means starting a process aimed at obtaining a permanent, and always updatable, "archive" of the people and places of a territory.

2022

Scientific director of the O_S(l)amoLAB experiential design and cultural innovation laboratory, managed by the PAU Department of the Mediterranean University of Reggio Calabria and the Municipality of Samo. The laboratory is an integral part of the design process financed by the call for Tourist and Cultural Enhancement of the Villages of Calabria (Unitary Regional Programming 2014-2020).
